

## Searching for Floeter Music in One License

Our recommendation is that you first select **Floeter Music** from the Publisher search. This filters the results by only **Floeter Music** publications.

The screenshot shows a search interface with a dark header bar containing "Browse by: Mass Setting | Other Liturgical Setting". Below this is a search area with three input fields: "Title, Tune, SKU Number, and/or Composer", "Hymnals / Resources" (with a dropdown arrow), and "Hymn #". A green "Search" button is to the right. Below the search fields is a "Refine search by:" section with options: "Contributor", "Publisher" (circled in yellow), "Tune", "Meter", "Psalm", "Language", and a checkbox for "Only show matches with downloads available".

(Sometimes refreshing the browser helps if a previous search had been done.)

In the text box, type in something unique to the song. We found that less is better. The search engine treats each entry like an 'or', so typing in 'Jesus Is the Reason' will return songs with Jesus or Is or The or Reason. It tries to suggest logical responses, but you can end up with a lot of songs you didn't want to look for if you type too much. In the example below, typing in only LEBENSBROT brought up the logical choices for the **Floeter Music** songs.

Remember that Valerie has also published with other companies, so for example, if the song is from an NPH book, you should search for the song under NPH as the publisher.

If all else fails and you cannot find the piece to report, submit it manually by pushing the **Manually Submit a Song** button and One License will send the request to Floeter Music and we can enter it for you with the best match.

**Didn't find the song you were searching for?**

First consider simplifying your criteria. For example, search for Psalm 27, not Psalm 27: The Lord is My Light and My Salvation. Sometimes less is better. If still unsuccessful, you can manually submit a title and have it reviewed by the Member Publisher.

**Manually Submit a Song**

We hope this helps you report songs a little easier!
